AR-VAL
PROD MOBILE

THE BEST ALLY FOR PERFORMANCE GAIN

Ar-Val Prod Mobile software is designed for operators and local authorities managing waste treatment facilities. It makes it possible to analyse in real-time the operation of the facility.

Your data are saved on our cloud secured servers in France and returned on your smartphones.

Ar-Val Prod Mobile is fully compatible with all mobile exploitation systems.

REAL-TIME MONITORING

- Morphological and production results
- Break-down and tonnage of sorted materials, average throughputdébits moyens
- Graphics presenting production status
- Listing of all detected flaw
